ABOUT ROLL'N COLLECTION

Tableside Service is considered an exquisite service in the hospitality industry. A smaller unit on wheels with a sleek design is the ideal serving sidekick for your staff in any dining environment. Just like everything designed by Mogogo, the Roll'n Service Cart collection starts with a core element. It's an elegant and functional cart with high-density BHP panels, heavy-duty casters, and a slick leather covered handle for easier and more comfortable navigation. From there, Mogogo's designers developed a series of add-ons that can easily transform your service cart into a cheese serving cart, cocktail cart, and much more.

MATERIALS

Joining our Bamboo **(1)*** collection is our new innovative BHP material. BHP is a newly composed material that arrived after two years of intense R&D. It merges layers of High-Pressure Laminate with a Vertical Bamboo core (Mogogo's expertise) creating a lighter yet durable panel that offers new textures and colors. This new material combines the advantages of both bamboo and HPL, perfect for the ever-changing needs of the hospitality industry. Available in a variety of finishes that resemble natural materials such as Nero Marquina Marble, Bengali Mango Wood, and Grey Slate **(2-4)**, making it easy to match with any event and decor.

The innovative bamboo core of the BHP goes in line with Mogogo's sustainability motto while the HPL's outer coating is durable for different environments, hygienic, and easy to clean.

Roll'n segments come in 2 finishes:
brushed stainless steel **(5)** and brushed brass **(6)**.

Easily cover up parts of your service carts with our original quick covers **(7)**. Both durable and easy to clean, they come in 4 different color options allowing you to easily match any of your event color schemes.

All service carts come with a hand-stitched leather **(8)** handle which gives the carts a luxurious look and a comfortable functionality.

* High-Density Bamboo finish only available in North America

HOW IT WORKS

Delivered to you in flat packaging with all the needed parts, Roll'n Service Cart is specially designed for easy and fast assembly.

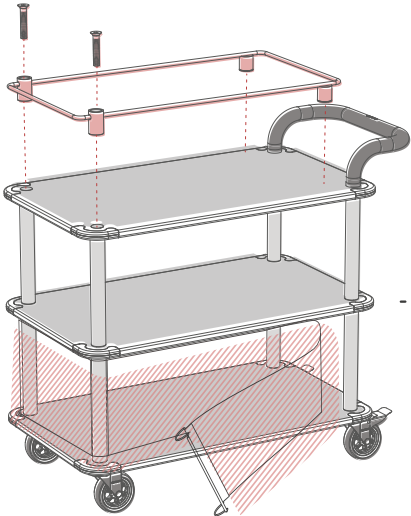

With a multi-purpose cart in mind, Mogogo's Service Cart was developed alongside a series of add-ons which can easily transform your standard service cart into a cheese serving cart, wine cart, cocktail cart, and more for any tableside service occasion. Add or remove Mogogo's add-ons, such as a cutting board, top rail border, wine glass holder, or ice and champagne bucket depending on your specific food service delivery need.

Functionality is key when it comes to the daily challenges of Food & Beverage professionals. For this specific reason, Mogogo's quick-covers are essential to quickly conceal the two lower layers for dishes or additional items you would like to hide from your guests in the most elegant way.
