BREATH GUARD

ASSEMBLY INSTRUCTIONS

PARTS

ASSEMBLY

- 1 Use round cap M6 Allen screws.
Do not over tighten the screws.

2

3

4

For high breath guard
add 5.7" segments.

5

Use the round cap M16 Allen
screws supplied, to attach the
connectors to the segments.

6

GREAT JOB, YOUR GOOD TO GO!

ATTENTION!

Clean breath guards with warm water and mild soap and rinse thoroughly with water. Dry with soft cloth to prevent water spots. You can also clean and polish with cleaners made specifically for acrylic, like Novus #1 or Brilliantize.

Dry with a soft sponge to prevent water spots.

- ✗ Never use abrasive or highly alkaline cleansers.
- ✗ Never scrape with razor blades or other sharp instruments.
- ✗ Never use benzene, acetone, or carbon tetrachloride.
- ✗ Never use cleaners such as Windex or 409.

<div>X2</div>  <div>ROUND CAP M16 ALLEN SCREWS</div>			<div>X1</div>  <div>CORDURA COVER</div>

ASSEMBLY

- 1 Assemble the frame by clicking the 4 plastic frame corners.

- 2 Attach the support arches to the frame on the side with the single hole.

- 3 Screw on the angled connectors to the poles, as shown here facing the opposite side of the holes in the pipe.

- 4 Attach the poles to the frame and to the bamboo support arches.

- 5 Attach the adaptors to your large unit table.

6

Flip the canopy base onto the connectors. With the help of an additional person, each person should hold one side.

7

Spread the fabric over the frame, starting with the side with the long stitches, on the highest corners of the frame.
